Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The Applicants' amendment, filed 10 April 2007, has been received, entered into the record, and considered.

2. However, newly submitted claims 172-186 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Originally filed claims 152-171 were drawn to a method and module for two-stage data aggregation, wherein multidimensional data was aggregated in a first stage along a first dimension of N dimensions, and aggregated in a second stage for a given slice in the first dimension along another dimension of said N dimensions. On the other hand, new (proposed) claims 172-186 are drawn to a relational database management system comprising a number of features, but fails to claim any feature related to the multi-stage aggregation of multidimensional data.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits.

3. In accordance with MPEP § 821.03, claims added by amendment following action by the examiner, MPEP § 818.01, § 818.02(a), to an invention other than previously claimed, should be treated as indicated by 37 CFR 1.145.

37 CFR 1.145. Subsequent presentation of claims for different invention.

If, after an office action on an application, the applicant presents claims directed to an invention distinct from and independent of the invention previously claimed, the applicant will be required to restrict the claims to the invention previously claimed if the amendment is entered, subject to reconsideration and review as provided in §§ 1.143 and 1.144.

4. An amendment canceling all claims drawn to the elected invention and presenting only claims drawn to the nonelected invention should not be entered. Such an amendment is nonresponsive.

5. The amendment filed on 10 April 2007, canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because originally filed claims 152-171 were drawn to a method and module for two-stage data aggregation, wherein multidimensional data was aggregated in a first stage along a first dimension of N dimensions, and aggregated in a second stage for a given slice in the first dimension along another dimension of said N dimensions. On the other hand, new (proposed) claims 172-186 are drawn to a relational database

management system comprising a number of features, but fails to claim any feature related to the multi-stage aggregation of multidimensional data.

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of **ONE MONTH or THIRTY DAYS** from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
